“ Denise was with me in orientation class in October 2019. I'll never forget bumping into her on our first day in primary care. I was so excited knowing that her and I would be working together on Team 10 here at the Cincinnati VAMC. I'll never forget when I was sick and didn't know what was going on, Denise would always stop by and ask how I was doing and to make sure I take good care of myself. Even after leaving primary care I would see Denise in the hallway and she would always ask me if I was taking care of myself and that she missed me. Denise will be missed dearly. My prayers and condolences go out to her family and friend. I'll miss you my friend.

“ I just met Denise in July, the Friday before the 4th of July weekend. We rode the same shuttle bus to work. That morning, the fire extinguisher, on the bus, went off in my face and I could not breath. She was quick to see that I could not get my breathe and she never left my side except to get a wheel chair. She was my angel that day. I was told that I had no air moving when I was brought into the VA Emergency Room. I was told by the doctor that with in minutes the out come could have been different. I could never thank her enough for what she did for me that day. Everyone else walked on and she could have done the same. I feel sadden by the news of her passing. For the short time that I knew her..... I saw a woman that had a "Huge Caring Heart." Prayers go out to her family and friends.

“ Denise was one of the best nurses in Primary Care at the VA. She was a great asset to primary care and the pharmacy service. Whenever I had a question regarding anything related to one of her patients, she knew the most about them and would bend her back to make anything happen. Last Christmas, I was surprised with a secret gift from someone at the pharmacy window, and it was from Denise for helping her a few times during the year. She will be greatly missed at the VA. Keeping her family & friends in my prayers.

“ I had the pleasure of working with Denise. Our offices were across the hall from each other. I have not known a kinder or more gentle spirit. She was wonderful with patients; compassionate, patient, a good listener and advocate. She always went above and beyond what was asked of her. I miss her smile and kind greetings. My condolences to her family. The world was truly a better place with her in it.

“ To the family. Denise was the best nurse at the VA. Even though I never met her personally, her personality said it all. She was really a dedicated worker. She went out of her way to help and get the services my brother needed after being diagnosed with alzheimers. She reassured me that he will get the help he needed. You will be missed. S. Lynn

“ I met Denise in my furniture store in 2007. She was a frequent customer and we soon discovered we had the same birthday. On our special day she brought me a bottle of red wine. I closed the store that eve & we shared the wine together. It began a very special friendship. From then on we celebrated our birthday each year going to Stonewood in New Tampa for our favorite French Onion Soup. We stayed in touch after the store closed and over the years Denise has been such a good friend. I will never ever forget my dear sweet loyal loving friend. And every March 8th I will light a candle and cherish our friendship.
