While I was only related to Donald through marriage, we shared a love for all things WKU. I will always treasure my conversations with him, listening closely as he shared many stories of what the university was like when he lived on campus and then worked on campus. I will miss him our talks.

Uncle Donald has always been an inspiration to everyone. Having diabetes at an early age, he eventually dealt with having his legs amputated; and a kidney transplant. He was a survivor--never a victim---always a victor with Aunt Ann by his side, cheering him on. He has grieved her passing and is with her now---we all look forward to that great reunion when we'll all be together in our heavenly home. Much love to Judy, Paula, Mike and the rest of the family.
